

Slash Your PPC Costs With The 100 Page SEO Plan

By BENT Enterprise.

Stop paying unaffordable premiums for fleeting leads.

The PPC Trap.

Companies in the service industry struggle with the unsustainable, recurring costs of Pay-Per-Click advertising. You pay for every click, but own none of the traffic.

Outdated Methods.

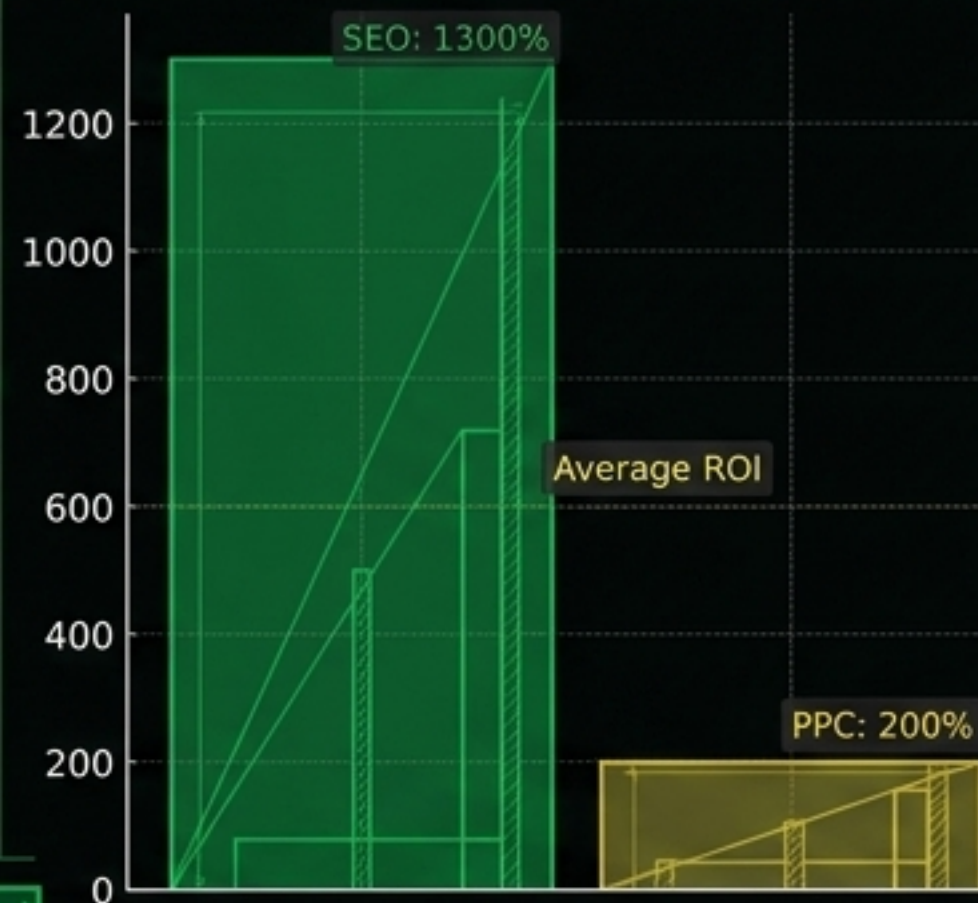

Relying on word of mouth, grocery store flyers, or newspaper advertisements is no longer sustainable for modern growth.

Owning digital real estate yields vastly higher returns than renting clicks.

Search Engine Optimization

500% to 1300% ROI.

A higher turnaround with no ongoing per-click commissions.

Pay-Per-Click

Caps out at roughly 200% ROI.

Expensive and temporary.

Unlike platforms like HOUZZ, we only charge you **once**.
You keep the deals you close without paying ongoing commissions.

High search volume demands a massive footprint to capture traffic.

Massive Search Volume
1,830,000 monthly searches for terms like "good home goods"

The Competitor Gap.
High search volumes mean high competition. Most websites only receive a tiny fraction of this total search volume because they lack the structural authority to stand out.

Estimated Visits Captured.
340,584 actual visits captured by top-ranking URLs.

To capture these visits, your site needs immense scale and quality.

**Establish absolute local market authority
with a monumental digital asset.**
